# Rectangle Friends: Which One Is Longer?

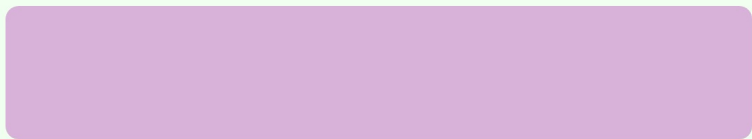

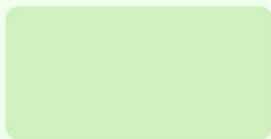

## How to Compare!

- 1. Look at two rectangles.
- 2. Find the one that is **longer**.
- 3. Trace the lines and circle it!

1. Circle the longer rectangle.

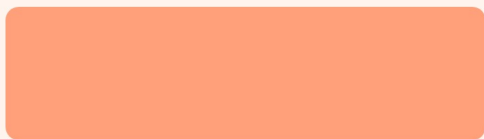

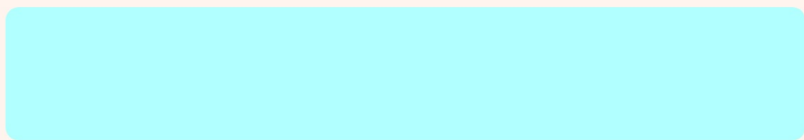

2. Circle the longer rectangle.

3. Circle the longer rectangle.

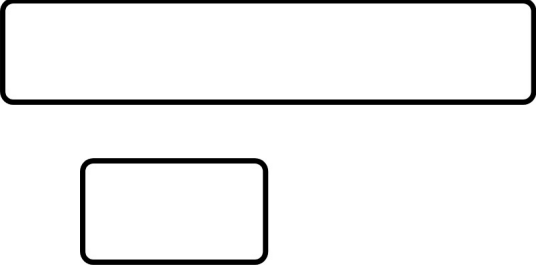

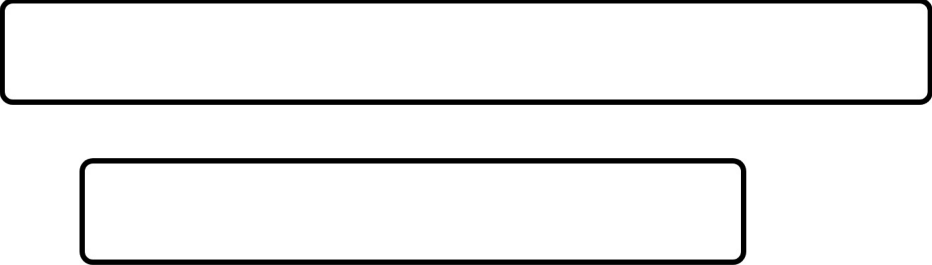

4. Circle the longer rectangle.

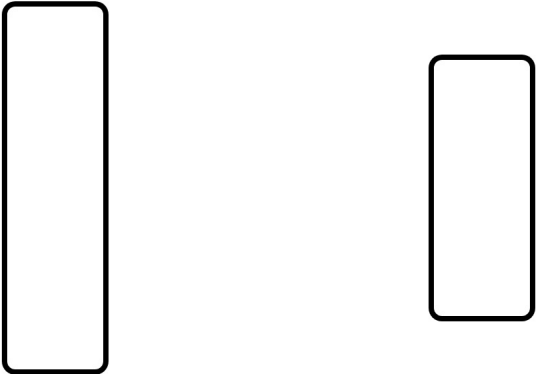

# Color & Compare!

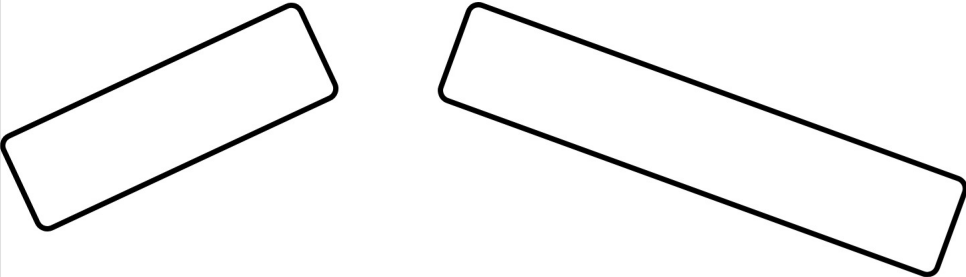

In each box, color the **longer** rectangle blue and the **shorter** rectangle yellow.

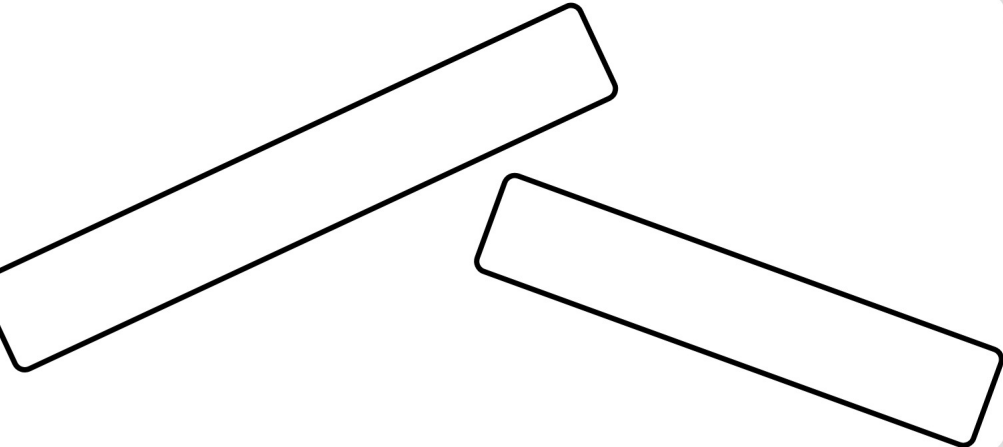

## My Measurement Strips

Ask a grown-up to help you cut these out to measure things!

# Rectangle Train Challenge

Look at the rectangles in each row. In the box below, write **1** for the longest, **2** for the middle, and **3** for the shortest.

# Draw Your Own Rectangles!

In the big box, draw three rectangles: one **short**, one **medium**, and one **long**.

# Match the Length!

Draw a line to match the object on the left to the rectangle on the right that is about the same length.

**Pencil**

**Crayon**

**Eraser**
