Variables – Easy

1. If $y = 3$, what does y equal?
2. What is the variable in: $x + 5$?
3. What is the variable in: $y + 5$?
4. What is the variable in: $7 + n$?
5. If $n = 3$, what does n equal?
6. If x represents an unknown number, what does it stand for?
7. If $n = 5$, what does n equal?
8. If $a = 2$, what does a equal?

Variables – Easy – Answer Key

1. If $y = 3$, what does y equal?

3

2. What is the variable in: $x + 5$?

x

3. What is the variable in: $y + 5$?

y

4. What is the variable in: $7 + n$?

n

5. If $n = 3$, what does n equal?

3

6. If x represents an unknown number, what does it stand for?

an unknown number

7. If $n = 5$, what does n equal?

5

8. If $a = 2$, what does a equal?

2
