## Algebra 1 – Unit 1 – Variables (Easy)

1. What is the variable in:  $3n$ ?

6. If  $a = 2$ , what does  $a$  equal?

2. What is the variable in:  $7 + a$ ?

7. If  $b$  represents some number, what does it stand for?

3. If  $y = 7$ , what does  $y$  equal?

8. If  $a = 1$ , what does  $a$  equal?

4. What is the variable in:  $7 + y$ ?

9. If  $b$  represents some number, what does it stand for?

5. If  $n = 7$ , what does  $n$  equal?

10. What is the variable in:  $7 + x$ ?

# Algebra 1 – Unit 1 – Variables (Easy) – Answer Key

1. What is the variable in:  $3n$ ?

$x = 0$

6. If  $a = 2$ , what does  $a$  equal?

$x = 2$

2. What is the variable in:  $7 + a$ ?

$x = 0$

7. If  $b$  represents some number, what does it stand for?

$x = 0$

3. If  $y = 7$ , what does  $y$  equal?

$x = 7$

8. If  $a = 1$ , what does  $a$  equal?

$x = 1$

4. What is the variable in:  $7 + y$ ?

$x = 0$

9. If  $b$  represents some number, what does it stand for?

$x = 0$

5. If  $n = 7$ , what does  $n$  equal?

$x = 7$

10. What is the variable in:  $7 + x$ ?

$x = 0$
